

# Teleflex CH2100 control

## Features:

- Single lever, dual action for throttle & shift.
- Surface mount design for quick, tidy installation.
- Includes neutral warm up capability.
- Includes hardware for two 33 type cables.
- Positive shift detents and neutral lock-out.
- Optional neutral safety switch.
- Weatherproof exterior, rugged diecast frame.
- Meets/exceeds all applicable industry standards.

## Applications:

Virtually all sail engine applications in which a side mount control is desirable. Single lever, dual action design controls throttle and shift with one lever. Utilizes 3300/33 type "universal" engine control cables.

Not suitable for use with Mercury® and OMC® OEM type control cables.
